Certifications | Java Basics, HTML CSS and Git-Github,MERN

Frontend Web Development

- Solved 200+ DSA/Coding questions on geekster platform
- Participated in various Coding contests organized by the platform.
- Worked on various projects like **Linkedin clone,Trello Board,Dr Lal Path Labs in React.js,**
- Technical Stack Learned **:Mongodb, Reactjs, Expressjs,Nodejs,JavaScript,Tailwind,Bootstrap,Node js, MongoDB,Express.js,API-Postman, SQL,** and **Java**

Projects

Trello [*Github Link*][*Github Link*]

- Developed **Fullstack** a useful UI to make dynamic CRUD functionality like Add ,Edit , Update and Delete.
- Key Features: CRUD operations to manage student information. Laptop, book, and course mapping Efficient and scalable backend system.This application showcases my ability to design and develop modern and efficient applications using best practices. It is designed to manage a large amount of student data and mapping relationships, making it an ideal solution for educational institutions.
- Tech Stack:**MERN, Tailwind css, React js, Mongos DB,Node Js, Expres js**

Linkedin(Clone)[*Github Link*]

- Developed a clone of Linkedin with the help of HTML, CSS and **React.js ,React redux** and Trying To Make them Responsive .
- Key Features**:** I build Individually and I am also made responsive , and added some extra functionality and trying to make them more attractive, Animations on images, hover properties,Add Post,add profile details, connected with Firebase internally.
- Tech Stack: This project is built with **React.js ,** also naked all concepts of state management tool **redux** and **react router dom**, also used many tools for make them UI attractive.

DR. LAL PATH LAB (Clone)[*Github Link*]

- Developed a clone of Dr. LAL PATH LAB with the help of HTML and CSS and Trying To Make them Responsive .
- Key Features**:** we worked as a team and we are also responsive , and added some extra functionality and trying to make them more attractive, Animations on images ,hover properties.
- Tech Stack: HTML CSS and well versed with Telwind.CSS Tool and also totally maintained the git repo As a version control .

Skills

- **Computer Language** : **Mongos DB React js,Node js , Express js,** Java, HTML , CSS, JavaScript and API
- **Frameworks / Libraries** : Tailwind.css,chart.js
- **Additional Courses** : Data Structure and Algorithms, OOPs
- **Tools & Technologies** : GIT, VS code

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2022	MCA	Subharti university	60%
2019	BSc	TCSC , Mumbai	8.69
2016	12th	HSC, Mumbai	68%
2014	10th	dUP	76%

Achievements and Co-Curricular Activities

- Secured 1 rank in Geekster's GEEKATHON in Sept 2023
- Secured 1 rank in Geekster's GEEKATHON in Nov 2023
- Secured 1 rank intracollege competition Math 2017 in TCSC
- Event Coordinator at ORIGIN 2017 in TCSC
- Secured 2nd rank in Intra College competition Chemistry ICT 2019

Professional Experiences

INN-FLOW   Jan/2021 - Nov/2023

Automation Test Engineer

- Worked on the Web, Mobile, And API Automation using suitable tools.
- Implemented and well versed with selenium with the help of java , Appium, API with Restassured,CI-CD pipeline, Jenkins,Postman,MySQL-DML commands
- Git and Github for version control.
- JIRA,Asana and Clickup as a management tool.

EPAM   Nov/2023-Present

Software Automation Test Engineer

- Worked on the Web, Mobile, And API Automation using suitable tools.
- Implemented and well versed with selenium with the help of java , Appium, API with Restassured,CI-CD pipeline, Jenkins,Postman,MySQL-DML commands
- Git and Github for version control.
- JIRA,Asana and Clickup as a management tool.
- **Jenkins, CI-CD, Microsoft Azure**

Projects

Inn-flow [*Project***]**

- **Overview** : This is the Hospitality Domain of the project, which maintained the Labor's , Accounting and also maintaining the User . this project US based hotel Management Applications.
- **Key Features** : Labor Management, Accounting , Sales And Procurement and also User Management.
- **Tech stack : Java, Selenium, Cypress, API with postman, Mysql, Framework.**

EPAM [*Project*]

- **Overview** : This is the Hospitality Domain of the project, which maintained the Labor's , Accounting and also maintaining the User . this project US based hotel Management Applications.
- **Key Features** : Labor Management, Accounting , Sales And Procurement and also User Management.
- **Tech stack : Java, Selenium,Restassured, API with postman, Mysql, Framework,MFE Mocking.**

Achievements and Co-Curricular Activities

For awards/achievement

  - Hackerrank track - Solve questions, get stars mention it in resume
  - Leetcode weekly contests - Appear for weekly contests and gain rating
  - Participate in Hectober and get some badges.
  - Geekster's GEEKATHON give T-shirt and Price Money.
